GO 'GREIGE'

The year's most sought after neutral isn't going out of style any time soon.

Its beauty is in its versatility. The addition of gray to beige creates a richer hue that can work in a cool or warm color scheme, meaning your hardscapes will continue to coordinate with evolving styles.

DEFINE YOUR SPACE

Incorporating multiple styles is a great way to segment your outdoor living areas into rooms without roofs. Adding a sleek border with a more natural stone, like in the image at right, creates the cozy feeling of a hearth rug in front of the fireplace.

BORDERS & BANDING

BUILD COLUMNS IN A SNAP

Tandem® Column Kit is an innovative, versatile system that can be used to create attractive, easy-to-install and durable columns. Great for use in residential and light commercial hardscape projects.

WALL IT OFF WITH U START

One of Belgard's latest innovations, U Start Base Block® is a universal base course for landscaping walls that promotes cost savings and installation time efficiency.

TANDEM® MODULAR GRID GIVES YOU ENDLESS POSSIBILITIES

Construct virtually any design up to 7' tall by simply attaching the grids to a wooden structure and connecting the veneers. Build an outdoor kitchen, skirt a deck, run electrical for lighting/sound, construct seat walls... the possibilities are endless.

INSTALLATION INNOVATIONS

PRODUCTS THAT MAKE INSTALLATION EASIER

Belgard® offers several products designed to make installation easier and more efficient. Why spend more time and money when you don't have to?

Whatever the building requirement, Belgard® wall systems are designed to work in harmony with your landscape. From functional retaining walls to fashionable outdoor living areas, you decide the application.

WE'LL PAVE THE WAY

Ashlar Tandem Wall

FREESTANDING OR RETAINING

Knowing the difference between retaining and freestanding walls can have a positive impact on your project and lead to a more enjoyable outdoor space.

Freestanding walls allow you to divide your outdoor living space into different areas. They provide visual interest and can make even the largest yard feel more intimate. Freestanding walls easily incorporate with other features like fireplaces or outdoor kitchens to provide a cohesive look.

Retaining walls can have multiple purposes. Some help to increase usable space, whether that be a flower bed or added yard space, while other retaining walls help to prevent erosion. Either application is made possible by a wall system that holds back soil and properly manages drainage. Larger walls also utilize soil reinforcement for added strength and long-term stability.

Wall Innovations By

TANDEM® WALL

The Tandem family of products is a revolutionary platform that showcases the stone-like aesthetic that homeowners prefer while offering job site efficiencies contractors need. A complete system, with a Column Kit and Modular Grid, Tandem provides versatility to complement any outdoor living space.

WALLS

The **Tandem® Wall** system designed by Belgard® is an innovative, versatile system that can be used to create attractive, curved or straight retaining and freestanding landscape walls. Great for use in a wide range of residential and light commercial hardscape projects.

COLUMNS

Building columns is easy with the Tandem system. Add a finishing touch to a wall, create a grand entry at the end of a driveway or dress-up an existing deck post with a stone-faced column. Ask your Belgard Representative about our **Tandem® Column Kit** (page 110) with Column Grids, Connectors and Veneer Units in one convenient package.

MODULAR GRID

Tandem® Modular Grid (page 112) is a revolutionary system that makes it easy to construct outdoor living elements. Use steel Column Grids and heavy-duty connectors to construct virtually any structure up to 7 ft tall including privacy walls, outdoor benches, kitchens and much more.

HOW IT WORKS

Belgard's connector design creates structural integrity in curved or straight walls.

BENEFITS BY THE NUMBERS:

- Meets additional ASTM standards (C-1372 & C-1262)
- Freestanding walls up to 28"
- Exceeds 5,000 PSI compressive strength concrete
- Engineered 90° corners
- Gravity walls up to 3 ft
- Reinforced walls up to 7 ft

ASHLAR TANDEM™

FREESTANDING / RETAINING WALLS

A wall system that creates a unique modular look and can be used in many ways: retaining walls, pillars, double-sided walls, benches and steps. This revolutionary wall replicates the look of natural stone.

PAVER CARE

PROTECT YOUR INVESTMENT

Belgard Products are designed to last for generations. Many homeowners choose to further protect and beautify their investment by applying a protective sealer. Adding a sealer can enhance the beauty of a project by highlighting the color and texture of the surface. It will also offer protection from stains like oil, grease or other accidental leaks.

Techniseal Protector for Concrete Pavers (Top-Bottom): Natural Look Matte Finish, Clear Look Semi-Gloss Finish, Color Boost Matte Finish, Wet Look Gloss Finish

THE ULTIMATE PROTECTION SYSTEM

Techniseal's 3-step treatment system guarantees the best results. Remove stains with a specially formulated Stain Remover, prepare the surface with Paver Prep, then apply a Protector that delivers the look you want.

SELECTING A CONTRACTOR

A hardscape project is an important investment in your home and selecting the right contractor is a critical decision. Don't be afraid to ask a lot of questions. It's important that you get to know your contractor so that you can work together as a team to create your ideal outdoor living space.

WHAT TO ASK

Are you certified?

Inquire about specialized certifications and training from organizations like the Interlocking Concrete Paver Institute (ICPI).

All Belgard® Contractors are required to have at least one team member who is ICPI certified and must meet annual requirements to maintain the company's status.

Are you insured?

It's important to hire a contractor who can provide proof of insurance and is able to guarantee their work for a period of at least three years after the installation.

Can I get a reference?

Ask for customer references and to see photos of past projects, both for design ideas and to get a sense of the contractor's level of creativity, expertise and work ethic. Ask for an address or two and check out the workmanship up close, with the homeowner's permission of course.

What isn't covered in your estimate?

Determine upfront which aspects of the project the contractor can handle. Will their team manage landscaping, plumbing, irrigation and lighting or will you be expected to handle this separately?

What's the schedule?

Be sure to get a complete understanding of payment terms, estimated start date and turn-around time.

BELGARD® WILL IMPROVE THE BEAUTY AND VALUE OF YOUR HOME.

But like any construction project, it's necessary to have as much information as possible before you begin the process. With that in mind, we created a project planning guide dedicated to helping you make the best decisions and understand what to expect before you get started with your project.

PROJECT CONSIDERATIONS

- 1 The general project should be conducted in phases, which include: demolition, site preparation, base material installation, bedding sand installation, hardscape installation, polymeric sand installation, additional paver cleaning and sealing.
- 2 The timeline for your hardscaping project depends on several factors including the **size and scale** of the project, **permits needed** (which vary by municipality), and the acceptance of any community organizations, such as homeowner associations or architectural review boards.
- 3 All outdoor projects are subject to **weather conditions** so there could always be delays.
- 4 Spring and summer are the busiest periods for contractors, so **start your planning during the winter months** or consider scheduling your project in slower periods.
- 5 **Confirm all the work you'd like done is contracted and scheduled up front.** Adding additional features will delay the schedule and add to the total cost.
- 6 Check with your contractor to ensure that all items being installed are readily available or match your timeline.
- 7 Be sure to **discuss with your neighbors** any construction phases that might be disruptive so that you can communicate that information to them as needed.
- 8 If you have a large project and would like to phase out construction over time, be sure to **plan the entire design** before you get started so that you can plan for any electrical, plumbing, drainage or landscaping needs.
- 9 Consider building your backyard before any projects in the front yard to avoid damaging your front yard.
- 10 When your project is finished, **walk through it with your contractor** to ensure the quality of the install, and **ensure you have receipts for materials / labor** and have registered your warranty.
- 11 Always take into consideration the next step of the project: What does the landscaping look like? Do you need to schedule the contractor to seal the pavers? Plan ahead to make sure you finalize your project and can enjoy it for years to come.

TIMELINE -

Planning the project

PHASE 1: 4-6 weeks

- 1 Consider how you will use the space and your budget
- 2 Examine styles and colors for your house or landscape
- 3 Get inspiration online
- 4 Research approval requirements from municipality or HOA
- 5 Set a budget

Installation

PHASE 3: 2-12 weeks

- 1 Time of the installation will depend on the scope of the project
- 2 Check with the contractor to ensure the materials ordered have arrived and are accurate
- 3 Connect with your contractor to ensure it is project

PEACE OF MIND, GUARANTEED

LIFETIME TRANSFERABLE LIMITED WARRANTY

Oldcastle® APG, Inc. ("Belgard") is proud to inform you that all of our interlocking concrete paver and retaining walls ("Products") meet and/or exceed the requirements of ASTM C-936 and ASTM C-1372. Belgard® guarantees its Products against these standards for the lifetime of the Product defined by ICPI. This guarantee does not apply to splitting, chipping or other breakage that could be caused by impact, abrasion or overloading. This warranty is transferable. The original proof of purchase is required.

This warranty is only valid if the material is installed under the guidelines of the ICPI (www.ICPI.org), The NCMA (www.ncma.org) or the Belgard Installation Guideline Manual. Improper installation voids this warranty. This warranty is for residential applications only and does not apply to commercial applications. It is recommended that the job be installed by a Belgard Contractor who provides a guaranty of their workmanship for a minimum of 3 years from the date of install. For warranty service, contact Belgard at 1-877-BELGARD. A service representative will investigate your claim within 10 business days. If the Belgard product fails to meet the specifications, Belgard will replace the defective product at no charge. Color matching cannot be guaranteed. Belgard will not be responsible for any replacement labor, consequential damages or incidental damages. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow for the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. All other warranties, express or implied are waived.
